# COMICS

Extract of the comic "More than one lifetime", published on Webtoon Canvas from September 2023 to February 2024.

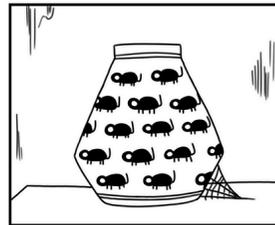

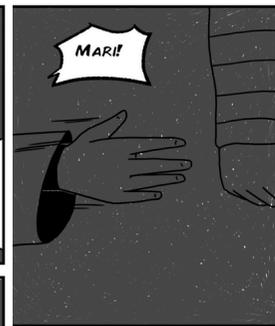

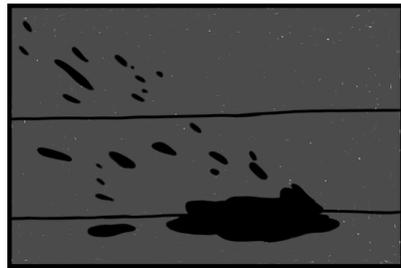

More than one lifetime tells the story of Alexa and Lucy, and how they finally come together in their lives.

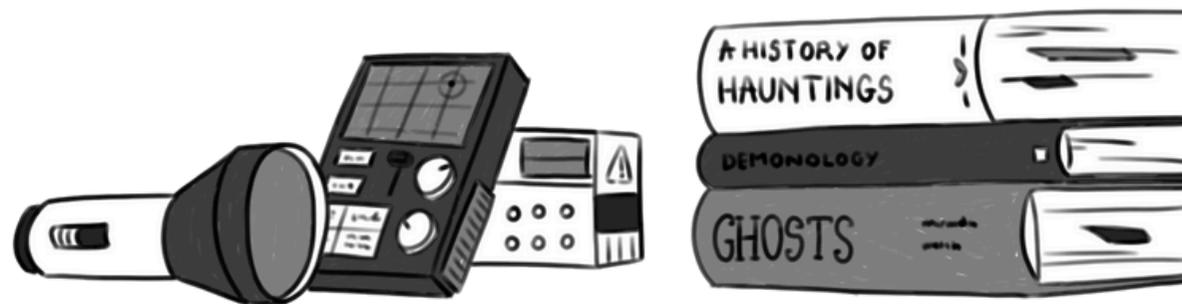

Through 7 chapters, the girls meet and get to know each other, and the truth about the origins of their soul mark is revealed, as well as its consequences.

This story was the first long form comic I made, all on my own, and despite its many flaws it taught me a lot about storytelling, project making, and how to pace myself when making something ambitious.

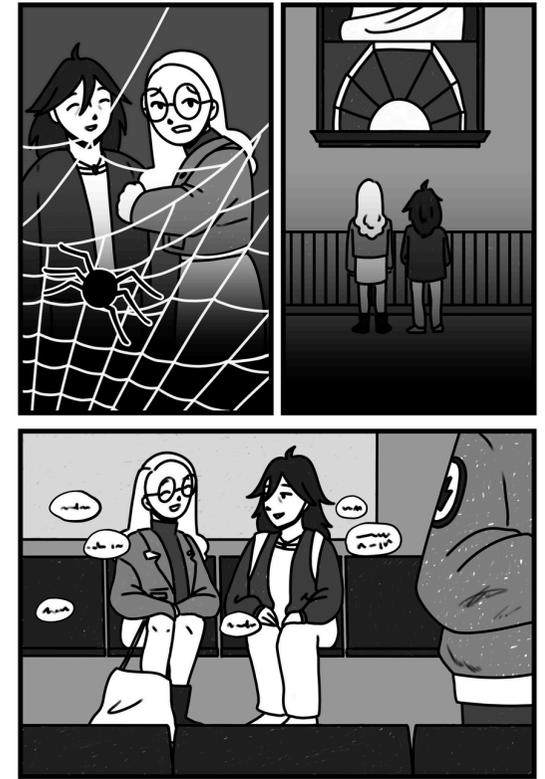

Extract of the comic “The haunted house”, a story of two friends visiting a haunted house and finding things they are not prepared for. Basis for the project “The Ghost Haunting Club”, comic currently publishing on Webtoon Canvas. 2023.

The Ghost Haunting club tells the story of Billie and Mari going on ghost hunts, getting to know each other, and growing as they go through university and haunted locations. It's a coming of age story, with ghosts! (and more?)

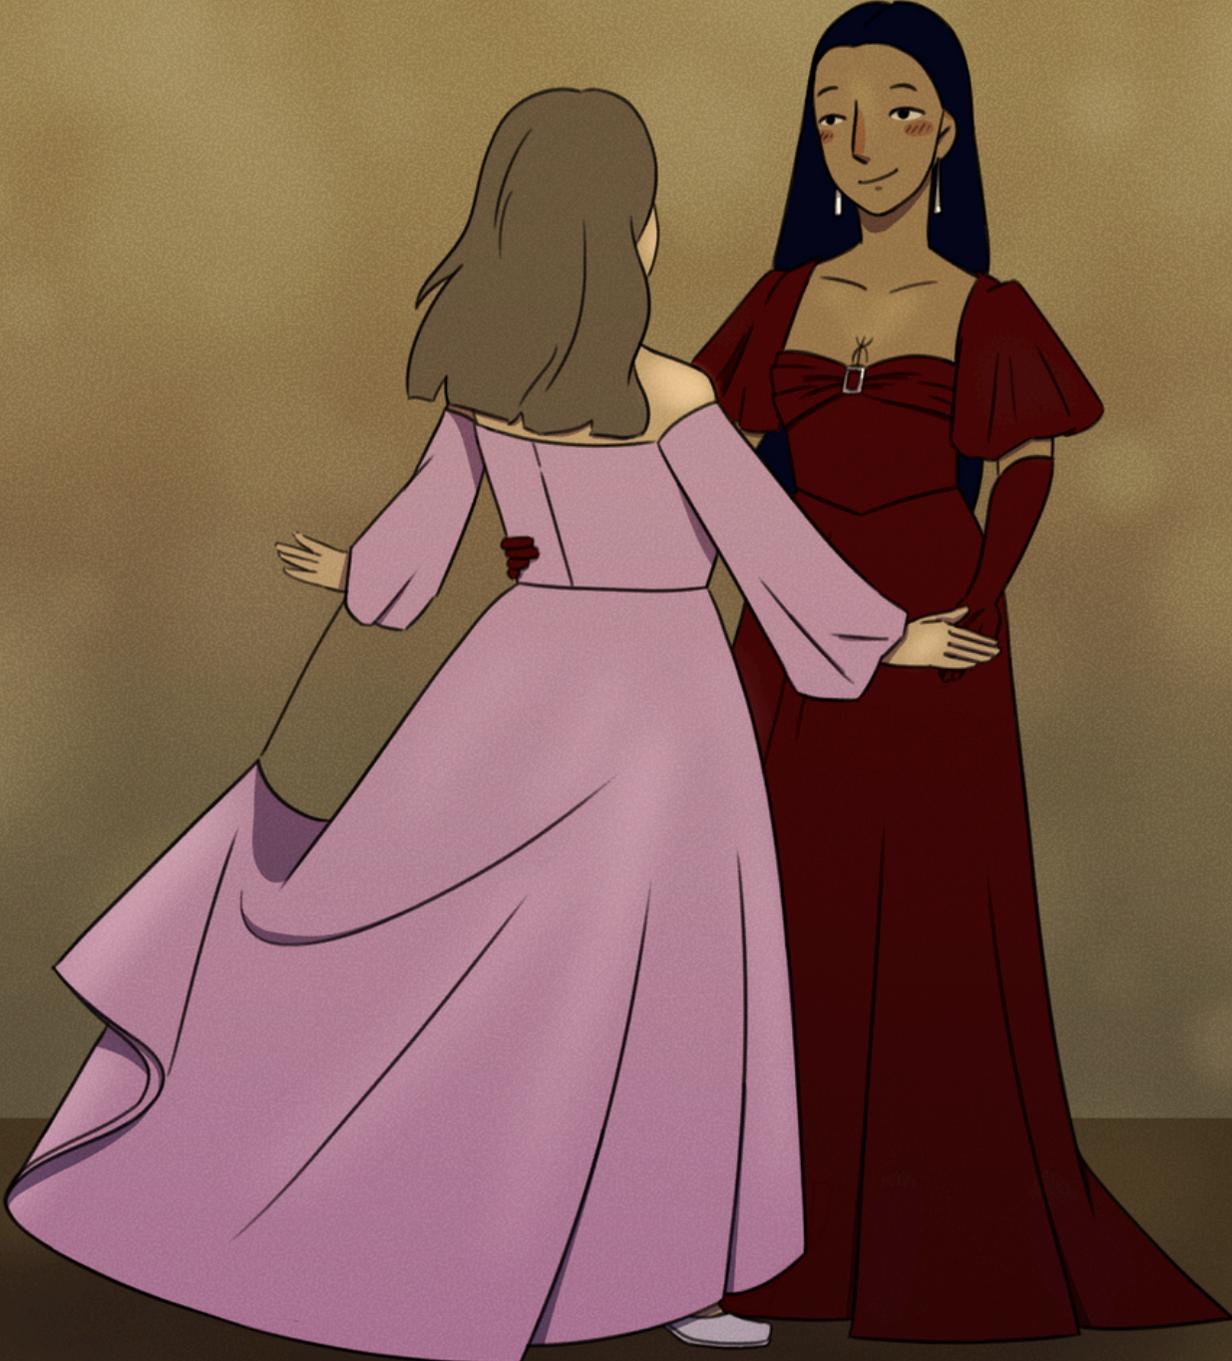

Based on the lessons I learned from More than one lifetime and the original short comic, this project is only in black and white.
